## 9.5 PROJECT SEGMENT GUIDANCE

The flow chart diagrams below incorporate the virement principles explained above and provide guidance on how a virement should be applied in the mSCOA environment. Virement decisions should start with the project segment. As illustrated below, if a virement needs to be done for a project, the municipality should consider whether it is a new or existing capital, operational or default project and based on the type of project, the diagram below will provide guidance on whether a virement is allowed or whether and adjustments budget is required.

**9.6 FUNCTION SEGMENT GUIDANCE**

The next segment that should be considered in terms of the impact of the virement process is the function segment. In terms of the flow diagram below, if there is no change to the function segment, a virement may be done subject to the virement principles above.

**9.7 FUNDING SEGMENT GUIDANCE**

If there is no change to the funding segment, a virement may be done subject to the virement principles above.

**9.8 REGIONAL SEGMENT GUIDANCE**

If there are changes to the regional segment in the application of a virement, then a virement may not be done but an adjustments budget is required, because Council allocates the project and funding to a specific region. A virement may be done if it will not result in changes to the regional segment subject to the application of the virement principles below.

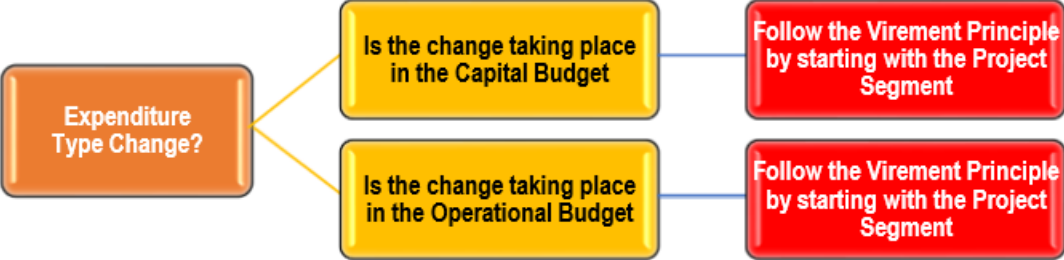

**9.9 COSTING SEGMENT GUIDANCE**

Changes to the costing segment should not affect the application of a virement.

**9.10 ITEM SEGMENT: EXPENDITURE GUIDANCE**

If changes in expenditure are incurred in the capital or operational budget, the virement decision should start with the project segment. If a virement is allowed, it will be subject to the application of the virement principles above.

An example of a change taking place in the capital budget is when the nature of the project may change from “outsourced” to an “own account” project which will result in a different selection of accounts from expense accounts within the item classification for Construction Work-in-progress.

**9.11 ITEM SEGMENT: REVENUE GUIDANCE**

If changes in revenue type change either in the Capital or Operational Budget. First start with the Project and apply the change to all the segments and should the Virement be allowed refer to The Virement Principals before applying the Virement.

Previously, revenue stood on its own in the budget. Now revenue is linked to the item and project. So, if the project segment is funded from a specific revenue source and there is a saving (item expenditure) within the function, then the saving (budget) may only be applied to another project within the same function or sub-function only if the revenue source is the same and if it is transferred to the same project in another function. Importantly, the revenue source should be the same which restricts the use of the revenue sources.

**9.12 BUDGET TRANSFER RESTRICTIONS**

9.12.1 No funds may be transferred between line items within the same vote without the approval of the vote holder authorization.

9.12.2 No funds may be transferred from or to the following line items:

- (a) Operating revenue - all line items
- (b) Operating expenditure - interest on external borrowing and all noncash items.

- 9.12.3 Funds may only be transferred between line items in the ring fenced group of employee related costs if approved by the CFO.
- 9.12.4 Transfers in capital budget allocations are only permitted within specified action plans and only by Council, and not across funding sources. In addition it must have comparable asset lifespan classifications.
- 9.12.5 No transfers are permitted in the first three months or the final month of the financial year without the express agreement of the CFO.
- 9.12.6 An approved transfer does not give expenditure authority and all expenditure resulting from approved transfers must still be subject to the supply chain management policy of Council as periodically reviewed.
- 9.12.7 Transfers may not be made between Expenditure and Income
- 9.12.8 No transfers are allowed in terms of income line items.
- 9.12.9 No transfers are allowed from capital budget to the operating budget.
- 9.12.10 Transfers should not result in new projects on the capital budget.
- 9.12.11 Transfers of conditional grant funds to a purpose outside than specified in the relevant conditional grant framework are not permitted.
