ATTENTION: Mr B Verwey

Dear Mr Verwey

RAILTON 950 HOUSING PROJECT (REFERENCE NUMBER 2079/3276.02)

Our meeting on site on 10 April 2024 refers.

The Western Cape Department of Infrastructure's provincial norms and standards for electrical connections makes provision for 20A electrical house connection supplies.

The Western Cape Department of Infrastructure allocated funding for 350 topstructures in the 2024/25 financial year, following the allocation for 241 topstructures allocated during the 2023/24 financial year.

In addition, AFR funding has been provided for the provision of solar geysers, the electrical network for the first 350 erven, and R16m for increasing the Notified Maximum Demand (NMD) with Eskom.

While we planning for the NMD upgrade continues, we propose and request that we temporarily limit erf connections to 10A. This will allow the balance of the project to continue, until the Eskom upgrades are completed.

Your confirmation of the above will enable us to issue the instructions to the implementing agent to proceed with construction.

Should you require any additional information or clarity, please advise as soon as possible.

Yours faithfully

A. VORSTER
MUNICIPAL MANAGER
