CONSOLIDATED INDICATOR OVERVIEW FOR MFMA CIRCULAR NO. 88 (2024)

Appendix A. Consolidated indicator overview for MFMA Circular No. 88 (2024)

Appendix A sets out the 315 municipal indicators¹ introduced by MFMA Circular 88 and differentially applied across four categories² of municipality: metro; intermediate city; district and local municipality. Each category of municipality reports on a smaller sub-set from this overall catalogue of indicators. Each indicator is placed on a readiness scale of Tier 1 (T1) - Tier 4 (T4) per municipal category. Only Tier 1 - Tier 2 indicators are to be reported on in the 2025/26 period.

Appendix B provides the Technical Indicator Descriptions (TID) for each of these indicators setting out the indicator rationale, definition, calculation details, data elements and more.

Appendix C provides an overview of revised, clarified and interim formulation of indicators in comparison to the 2023 Circular 88 addendum update. This is relevant for all municipalities, but particularly for metropolitan municipalities that have developed standard operating procedures for earlier iterations of the affected indicators.

The indicators in MFMA Circular 88 are organised by sector and outcome, applying a results-chain logic in relation to generalised outcomes. They have been adopted for implementation in the 2025/26 local government financial year by the Joint Planning, Budgeting and Reporting Reform Steering Committee with institutional representation from across the centre of government.

Based on the experience of MFMA Circular 88 implementation to date, and with the benefit of sector and municipal feedback, there have been some readiness demotions to Tier 3. The following tables give guidance on codes and colouring of indicators per sector.
