1 INTRODUCTION

1.1 Goldwind Background

Goldwind is an international company headquartered in Beijing, China, and a leader in the renewable energy sector, with projects across Africa, Asia, Australia, Europe, and the Americas. Founded in 1998 in Urumqi, Xinjiang, Goldwind has expanded its business worldwide. The company is committed to preserving blue skies and white clouds for future generations. With strong international research and development capabilities and extensive experience in wind farm development, Goldwind has become a global leader in manufacturing wind turbine generators (WTGs) and providing comprehensive wind power solutions.

Goldwind's accumulated wind power installations exceed 155 GW (November 28, 2025), and approximately 56,000 Goldwind wind turbine units have been installed all around the world

1.2 The Requirement
